PROUD CO-SPONSOR OF GOLDSCHMIDT2008

MISSION

The Geochemical Society, founded in 1955, is a nonprofit organization for scientists involved in the practice, study and teaching of geochemistry. Our principal roles are to understand and meet the needs of our international membership so as to provide them with programs and services that will enrich their professional development and careers; and advance the application of chemistry to the widest possible range of geological and cosmological problems. Our sponsorship of the Goldschmidt Conference is a significant component of both these goals.

AFFILIATION

Many of our programs and activities are performed with other (sometimes many) scientific organizations. GS is an associated society of the Geological Society of America (geosociety.org), a member of the Council of Scientific Society Presidents (cssp.us), a member of the Council of Engineering and Scientific Society Executives (cesse.org), and has a liaison with the American Association for the Advancement of Science (aaas.org).

MEMBERSHIP

Our 2000+ members span more than 45 countries and have diverse geochemical backgrounds. Society members receive a subscription to Elements magazine as well as member discounts on publications, conferences and RiM&G short courses. For more information on Geochemical Society programs and member benefits, visit our website at www.geochemsoc.org

THE EUROPEAN ASSOCIATION OF GEOCHEMISTRY

EAG IS PROUD TO CO-SPONSOR GOLDSCHMIDT2008

The European Association of Geochemistry was founded in 1985 to promote geochemical research and study in Europe. The European Association of Geochemistry, together with The Geochemical Society (its partner North American based organization) co-sponsors all Goldschmidt conferences including the biennial European meeting.

The EAG also sponsors other European Geochemical meetings and workshops, and it awards medals for outstanding contributions to geochemistry. Members receive the journal *Elements* and receive reduced subscription rates for the EAG's journal, *Chemical Geology*.

The EAG invites you to become involved! Please attend the EAG general assembly at Goldschmidt2008. Keep up with the latest on European Geochemistry and find out more about your society at the EAG website: www.eag.eu.com
